

# *South Bay Camera Club Bulletin*

[www.sbcccphoto.org](http://www.sbcccphoto.org) or [www.s4c-photo.org/SBCC](http://www.s4c-photo.org/SBCC) December 2003, January 2004

Meetings: 2<sup>nd</sup> and 4<sup>th</sup> Monday of the month, 7:30 PM, Knob Hill Community Center, 320 Knob Hill (at PCH), Redondo Beach, CA. President: Bob Houston (325-1056); Vice President: Bill Berry (378-9511) Secretary: Diane Cheney (542-4546); Treasurer: Ruth Harnack (378-0573); Editor: Bob Houston (325-1056), <rhouston@socal.rr.com>

## **DECEMBER CALENDAR**

**Last call** to join the club in our annual Holiday Banquet at **Coco's** on December 8<sup>th</sup>. Make your reservations by November 28<sup>th</sup> to be sure you have a seat. The anonymous gift exchange is optional but fun for all.

## **FROM THE PRESIDENT:**

Our slide competition for November 10<sup>th</sup> was its usual high quality, with 19 Awards and 22 HMs presented by judge Greg Locke..

Even if you don't compete with slides, you should come and admire quality work.

We were honored to have Dr. Rohde come to judge our prints and digital images on Nov. 24<sup>th</sup>. His comments are always helpful and his knowledge of digital photography is exceptional

About half of the members participate in the photo competitions. I am sure that all of you take pictures, and have something to show the other club members. We all learn from other's work, even if we can't win awards. Go through your files and bring in something next year.

Bob

## **MEMBER'S EXHIBIT**

**Frank Goroszko** will have a one-man show in the El Camino College Library during the entire month of January. If you are on campus, be sure to see it. Congratulations, Frank.

## **JANUARY 12<sup>th</sup> PROGRAM: SPACE**

Over the past 40 years, a revolution in photography has quietly taken place over our heads, up in space. Today, satellite cameras photograph nearly every inch of the earth's surface every day. In a program of slides and large prints, SBCC member, **John Bohner** will share images and information he has collected, showing the history, science and even art in photographs taken from space. Well known projects, like Apollo and Space Station Freedom are represented in this program, along with an 'alphabet soup' of NASA's lesser known projects.

John is an avid 35mm photographer, and has spent the last 25 years working in aerospace, helping to build cameras and sensors for a variety of NASA projects.

As usual, guests are welcome.

## **SBCC WEBSITE**

**Phil Cohen** was pleased to announce that sbcccphoto.org received an average of 236 visits a day during October. Visitors have called up an average of 1,051 pages a day. November is doing more, in spite of Phil's ongoing move to another facility.

We congratulate Phil on this important contribution to our club.

*Merry Christmas and a Happy New Year to all in the SBCC*
